Dear ola,

On behalf of the Graduate Faculty, I am pleased to offer you admission to the Doctor of Philosophy in Computer Science program at the University of New Hampshire for Fall 2023. It is an exciting time to join UNH and I would like to take this opportunity to congratulate you on your admission. You are on your way to taking the next steps in your graduate education.

As an international student, we understand there are some additional steps required for you to fully enroll as a student here at UNH. Your Certificate of Eligibility for a U.S. student visa will be mailed to you by the Office of International Students and Scholars (OISS) only after you have responded to your offer of admission and OISS has received all of the financial documents needed to prove that you have sufficient funds to meet all expenses at the University of New Hampshire. If you have questions on this, then please contact OISS at oiss@unh.edu. We recommend you arrive approximately one week prior to the beginning of classes to attend a required orientation for international students. Additional information will be forwarded to you with your I-20/DS2019.

For your records, your UNH ID number will be 945227029. You will hear from your academic department with further details about your offer of admission, including financial support(if applicable), enrollment requirements and the start date of your classes. The Graduate Catalog (www.unh.edu/grad-catalog), which outlines the general requirements of your program, and the Graduate School are other valuable resources for answering any questions.

To reply to this offer, please click the green button in the lower right side of this window. If you wish to defer this offer to a later term, please email grad.school@unh.edu indicating your UNH ID number and the future term you wish to defer to.

After accepting your offer, you will receive important emails detailing your next steps, including instructions on how to setup your UNH Email address and register for classes.

I wish you success in your graduate studies and we hope to hear from you soon regarding your decision. I look forward to connecting with you in the Fall. If you have any questions, then please do not hesitate to contact the UNH Graduate School office grad.school@unh.edu.

Sincerely,

A handwritten signature in black ink, appearing to read 'Cari Moorhead'.

Cari Moorhead, Dean
